Stephanie

You mentioned this the other day?

Robert Law, Ph.D.

Subject: FW: FYI - UPDATE: ProUCL version 5.0

Privileged and Confidential - Prepared at Request of Counsel

Rob,

We were notified today by EPA Region 1 that an updated version of ProUCL (version 5.0) is now available for use.

Can you please confirm with Stephanie that we should be using this version for the LPRSA risk assessment EPC calculations going forward?

Thanks,

Betsy

Subject: FYI - UPDATE: ProUCL version 5.0

ProUCL 5.0.00 is now available for use.

In September of 2013, the USEPA Office of Science Policy updated ProUCL, a statistical software package for analysis of environmental data sets with and without nondetect (ND) observations. ProUCL version 5.0 contains statistical methods and graphical tools to address many environmental sampling and statistical issues.

The 5.0 update includes:

- ☐ ☐ Windows 8 compatibility
- ☐ ☐ Updated guidance and support documents
- ☐ ☐ UCLs/EPCs and Upper Limits/BTVs modules enhancements
- ☐ ☐ an upper simultaneous limit (USL) statistic
